CIRCULAR FLOOR BENEFITS

360° DAYLIGHT IN

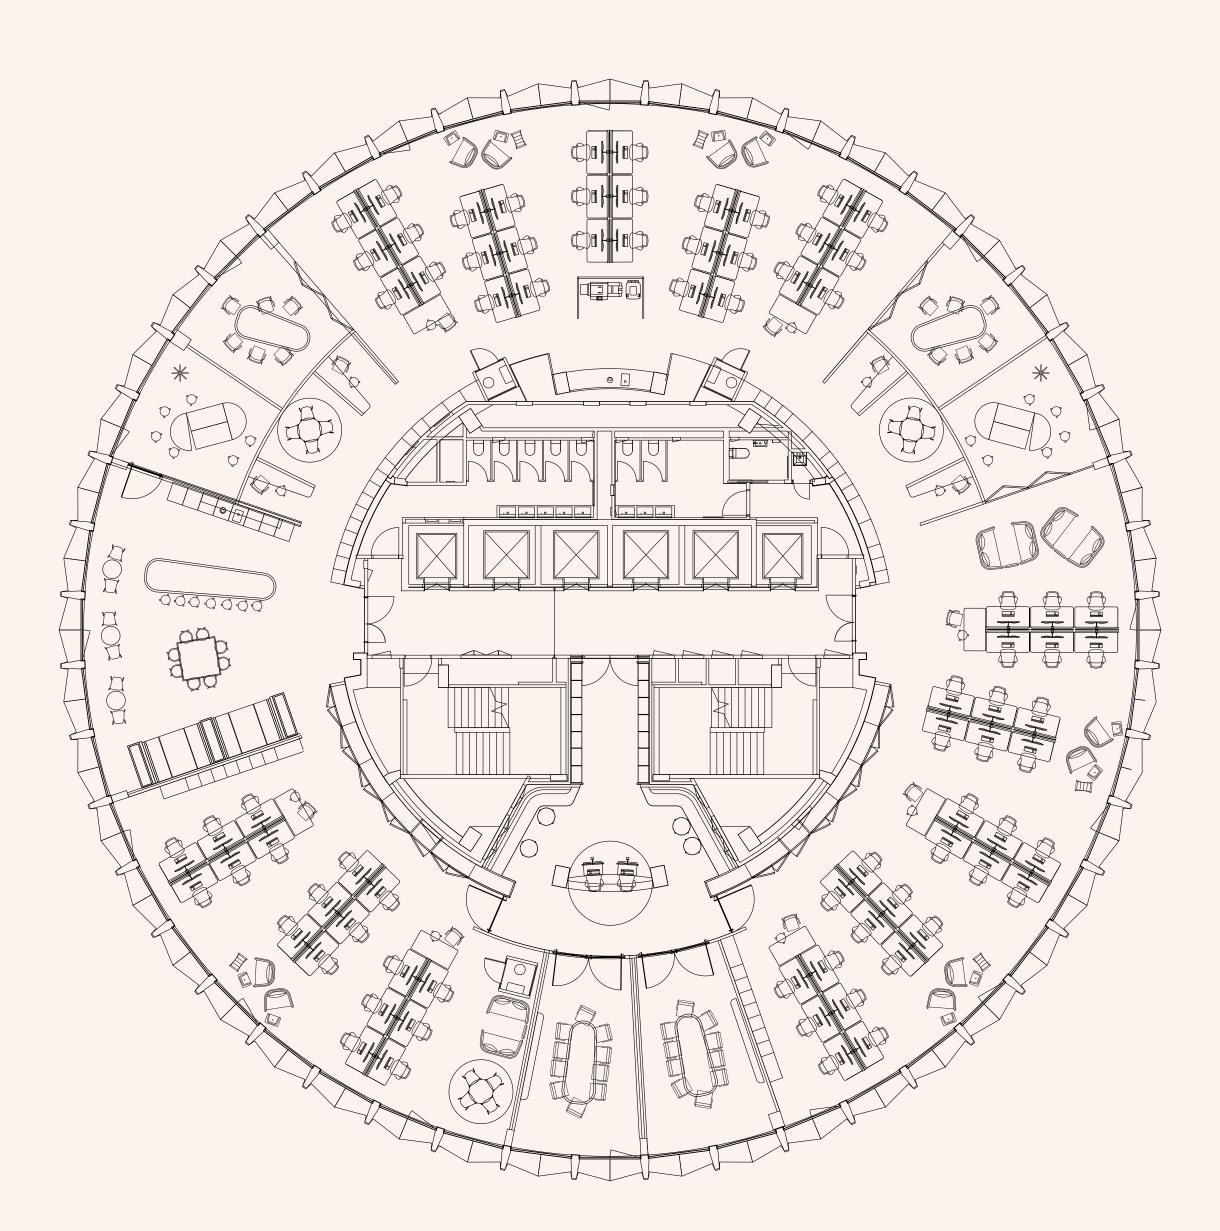

Floor to ceiling windows provide a workspace flooded with natural light throughout the day.

360° VIEWS IN AND OUT

The floor to ceiling windows and Space House's central location in a conservation area combine to offer spectacular uninterrupted views of London.

You can experience the whole of London's skyline, taking time out to calm the mind and recharge throughout the day.

EQUALLY DIVISIBLE

A symmetrical floor plate enables simple and straightforward space planning. Three entrances off the core also makes future subdivision easy, should business needs or cycles change.

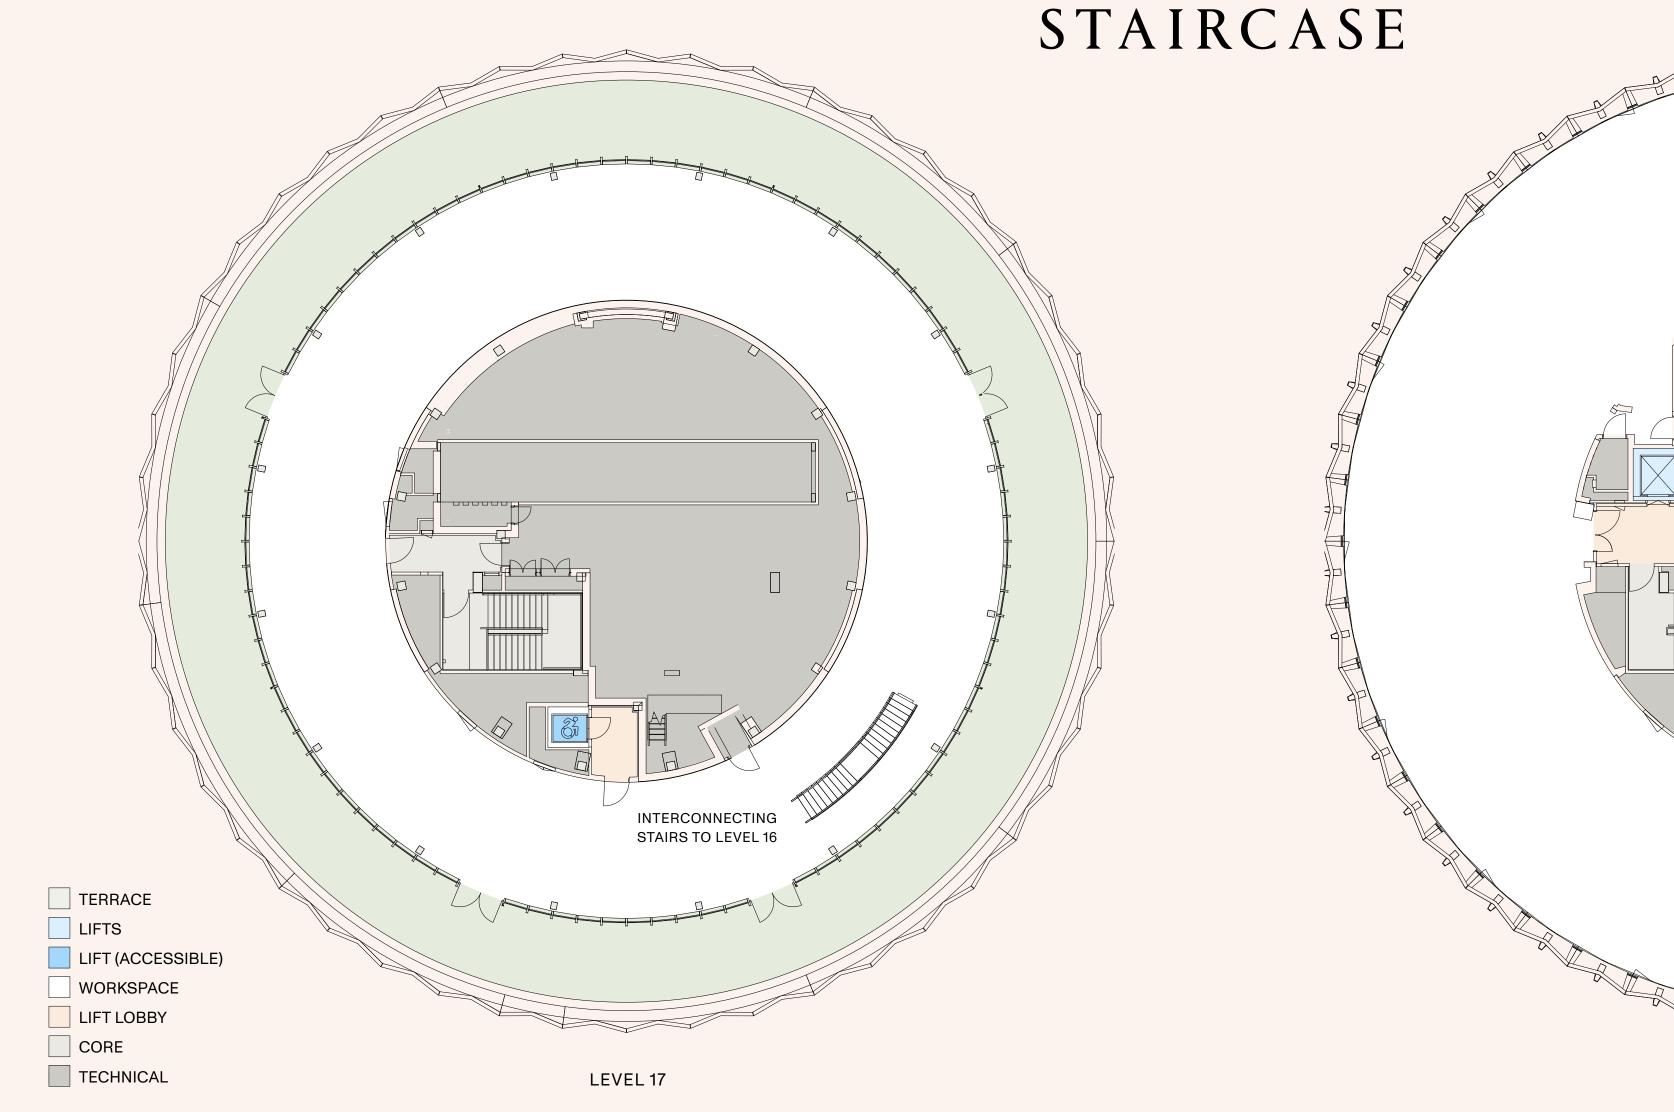

CONNECTED FLOW

A floor plate with no hard corners, columns and unusable areas encourages natural and unrestricted fluid movement of ideas, people and groups.
